

## **Plan to celebrate Research Week from November 7th to November 14th:**

**Theme:** "Advancing Medical Research for Better Healthcare"

### **Activities:**

1. **Research Paper Presentations:** Encourage medical students and faculty to present their research papers.
2. **Workshops on Research Methodology:** Organize workshops on research design, data analysis, and publication ethics.
3. **Guest Lectures:** Invite renowned researchers to deliver lectures on various topics.
4. **Research Poster Competition:** Conduct a poster competition to showcase innovative research projects.
5. **Research Journal Club:** Discuss recent publications in top medical journals.
6. **Collaboration and Networking:** Facilitate interactions among researchers, clinicians, and students.

### **Events:**

1. **Inauguration:** November 7th - Launch the Research Week with an inaugural ceremony.
2. **Research Day:** November 10th - Host a research day with paper presentations and poster exhibitions.
3. **Awards and Recognition:** November 14th - Recognize outstanding research contributions and award winners.

### **Promotion:**

1. **Social Media:** Utilize social media platforms to promote Research Week activities.
2. **Posters and Flyers:** Display posters and distribute flyers across the medical college.
3. **Email Notifications:** Send regular updates and reminders to students and faculty.

### **Outcome:**

1. **Increased Research Awareness:** Promote research culture among medical students and faculty.
2. **Improved Research Skills:** Enhance research skills through workshops and training sessions.
3. **Networking Opportunities:** Facilitate collaborations and networking among researchers.

By celebrating Research Week, medical colleges can foster a culture of research, innovation, and excellence in medical research.
